

## Saint John District- Council Nomination 2025

Michael Gray, P.Eng.

**Statement of intent:** My time in the local branch and the stage in my career has increased my interest in assisting the growth and direction/vision of the Engineering Profession. As a public servant responsible for the delivery of Safe Clean Drinking Water to the citizens of Saint John, the importance of regulations to protect the public plays a major role in my day-to-day operations and decisions.

**Biography:** *Mike Gray, P.Eng., graduated with his Bachelor of Science, Civil Engineering from UNB in 2006 and subsequently acquired his P.Eng. in 2010. He began his career in the construction and consulting industries, gaining nearly 15 years of experience in the design and Project Management of a variety of municipal projects. Most recently, Mike moved on to the public sector where he works as an Operations Manager for Saint John Water. In his current role, Mike has achieved Operator Certifications in Water Distribution and Wastewater Treatment and is currently the Operator in Charge of Saint John Water's Distribution and Collection System, which is both the largest industrial water supplier in Atlantic Canada and the oldest public water system in Canada.*

*Following more than ten years of volunteering with minor Lacrosse and Hockey Associations, Mike has switched to focusing his time on volunteering and giving back to his profession by serving on the local APEGNB Branch as councillor and most recently as Branch Chair, as well as serving on the Provincial Awards and Nominations Committees.*
